EDUCATION

University of CA, Davis

2016 – 2018

Major: Chemical Engineering

GPA: 3.52

Degree Expected: June 2018

Sacramento City College

2012 – 2016

Major: Lower Division of
Engineering

GPA: 3.53

SKILLS

Language:

Matlab – Intermediate

JS – Intermediate

#C – Novice

Frameworks:

React, MongoDB,

Express, Node,

ASP.Net

COURSES

Discrete Math

Intro to Programming: C

OOP language – Rust

AWARD

Dean's Honor List – Fall 2016

PROJECTS

Car Dealer Website (in progress)

- Built a dynamic website that allows car dealer owners to upload their inventory and all necessary descriptions needed.
- Nodejs server stores all the images in AWS, and embedded the links of these images to a NOSQL database along with other descriptions.
- The front-end is built using React and Redux framework that make API request to the server endpoint that hosted in AWS to render all the images and description.

Full-stack To-do App

- Built a dynamic website that stores user's to-do list. Users can create new account, login, create and modify their to-do list.
- Back-end is built on NodeJs and ExpressJs. Server provides RESTful API micro services to the front-end website.
- User's password is hashed before store into Mongo database. Each of to-do is linked only to their creator's database, and can only access by their creator.
- Server will generate a new token every time an user sign in. The token is embedded in the HTTP header so that user can access his to-do list.

WORK HISTORY

Tutor – Various Subjects

Aug 2013 – Aug 2016

Math Lab of Sacramento City College

- Tutored students on Calculus, Differential Equation, Chemistry, Physic, and Statistics
- Improved my problem-solving and communication skills
- Consistently reviewed my knowledge on various subjects
- Improved ability constructing various types of hypothesis test depending on given data or analyzed subjects

Part-time Supervisor

Aug 2014 – Aug 2016

Pizza Guys, Lodi, California

- Managed manpower resource effectively to make sure all objectives were met consistently
- Made decision to ensure customers satisfied when problems occurred
