EDUCATION

University of CA, Davis

2016 – 2018

Major: Chemical Engineering

GPA: 3.52

Degree Expected: June 2018

Sacramento City College

2012 – 2016

Major: Lower Division of
Engineering

GPA: 3.53

SKILLS

Language:

Matlab – Intermediate

JS – Intermediate

#C – Novice

Frameworks:

React, MongoDB,

Express, Node,

ASP.Net

COURSES

Discrete Math

Intro to Programming in C

OOP language in Rust

AWARD

Dean's Honor List – Fall 2016

PROJECTS

Car Dealer Website (in progress)

- Built a dynamic – responsive website that allows car dealer owners to upload their inventory and all necessary descriptions needed.
- Nodejs server stores all the images in AWS, and embedded the links of these images to a NOSQL database along with other descriptions.
- The front-end is built on React – Redux framework and mobile first approach that makes GET API request to the server endpoints, which hosted in AWS, to render all the images and description.

Full-stack To-do App

- Built a dynamic website that stores user's to-do list. Users can create new account, login, and modify their to-do list.
- Back-end is built on NodeJs and ExpressJs. Server provides RESTful API micro services to client-side.
- User's password is hashed before stored into Mongo database. Each of to-do is linked only to their creator's database, and can only be accessed by their creator.
- Server will generate a new token every time user sign in. The token is embedded in the HTTP header which allows user to access only their data

WORK HISTORY

Tutor – Various Subjects

Aug 2013 – Aug 2016

Math Lab of Sacramento City College

- Tutored students on Calculus, Differential Equation, Chemistry, Physic, and Statistics
- Improved my problem-solving and communication skills
- Consistently reviewed my knowledge on various subjects
- Improved ability constructing various types of hypothesis test depending on given data or analyzed subjects

Part-time Supervisor

Aug 2014 – Aug 2016

Pizza Guys, Lodi, California

- Managed manpower resource effectively to make sure all objectives were met consistently.
- Made decision to ensure customers satisfied when problems occurred.
